

S side of Admiral Way, between 41st Ave SW & California Ave.

“Before”

Categories entered:	<u>Business District Gateway & From Ruin to Rescue</u>	
Volunteers:	The Admiral Planning Coalition	Years: 1
Year Built:	2002	Size: 2 blocks (South Side)

Description: Drawing on the Admiral District’s views and proximity to the water, a native coastal planting palette was developed with the assistance of a professional landscape architect. Drought tolerant, vigorous garden varieties were used to minimize water requirements and maintenance, resist insects and disease, and quickly establish cover to eliminate weeds. A tanker truck service was hired to water the plants for the first 2 years, and spring and fall clean-ups are organized with flyers and mailings.

Plant List: *Acer truncatum x platanoides* ‘Norwegian Sunset’, *Ceanothus gloriosus* ‘Point Reyes’, *Pennisetum alopecuroides* ‘Hameln’, *Achillea* ‘Summer Pastels’, *Fragaria chiloensis*.
